Раздел 2 (задания по чтению)

Прочитайте тексты и установите соответствие между текстами и их заголовками: к каждому тексту, обозначенному буквами A-G, подберите соответствующий заголовок, обозначенный цифрами 1-8. Используйте каждую цифру только один раз. В задании есть один лишний заголовок.

- 1. His family were not happy
- 2. The institutions responsible for the awarding
- 3. The person who set up the awarding tradition
- 4. The future of the Nobel Prize

- 5. Encouraging researchers
- 6. A grand dinner
- 7. Following the Nobel initiative
- 8. The place to look for information
- A. The prizes are awarded at a formal ceremony held annually on 10th December, the date that Alfred Nobel passed away. Each prize constitutes a gold medal, a diploma, and a sum of money. The monetary award is quite large, slightly more than one million euros. This was originally intended to allow laureates to continue their work without the pressures of raising money.
- **B.** According to Nobel's will, the Swedish Academy of Science was to award a yearly prize in physics and chemistry. The Caroline Institute at Stockholm would award the prize for medicine or physiology. The Academy of Stockholm would determine the award for literature. Five members appointed by the Norwegian government select the receiver of the annual Peace Prize. The Peace Prize is awarded in Oslo, Norway, while the others are awarded in Stockholm, Sweden.
- C. Alfred Nobel was born in 1833. He was an outstanding Swedish chemist and engineer. Alfred Nobel's contribution in science was impressive but he became famous as the inventor of dynamite. Some of his biographers say that he regretted that invention when he realized devastating way people could use it. In November 1895, Alfred Nobel signed his last will, in which he left \$9 million to establish the Nobel Prize. He died in 1896.
- **D.** When his will was opened after his death, Alfred Nobel's relatives were astonished. They learned that Alfred had left much of his great fortune for the establishment of a prize. They took the will to court but lost, and the first awards were distributed in 1901, on the fifth anniversary of Nobel's death.
- E. The Nobel Prize in Economics is a prize awarded each year for outstanding intellectual contributions to economics. The award was instituted by the Bank of Sweden, the world's oldest central bank, on its 300th anniversary in 1968. Although it was not one of the awards established in the will of Alfred Nobel, economics laureates receive their diploma and gold medal at the same ceremony, on 10th December in Stockholm, with the other Nobel laureates. The amount of money awarded to the economics laureates is also equal to that of the other prizes.
- F. The Nobel Banquet is a magnificent party which is held in Stockholm City Hall. The preparations are great. Hundreds of cooks, waiters and attendants ensure that everything runs smoothly. Today, about 1,300 guests are invited, among them members of the academic, governmental, cultural and industrial spheres, and the Royal Family of Sweden. Every Nobel Banquet has a particular theme. This is reflected in the decorations and the entertainment for the evening. The menu is kept secret until the actual day of the banquet.

G. The Nobel Museum was founded in the year 2001 which was the same year that the Nobel Prize celebrated its 100th year! There you can learn everything about the Nobel Prize and the people who have won the prizes over the years. Of course, a big part of the exhibition is about Alfred Nobel, the founder of the Nobel Prize. The museum's restaurant offers a nice place to relax, enjoy a cup of coffee and try Nobel Ice Cream, a dessert previously served at the Nobel Prize Banquets.

Downing Street

Half-way along Whitehall there is a very short street called Downing Street. 10 Downing Street is widely known in the United Kingdom simply as "Number 10" and it is one of the most famous addresses in the world. It is the place where the British Prime Minister lives and works.

The building known as Number 10 originally comprises three houses: the "house at the back", "Number 10" itself, and the house next to it. The house at the back is a majestic mansion which was built around 1530. 10 Downing Street was a smaller house than the house at the back, and was built later, in 1685. They all belonged to the King, and members of the royal family used to stay there.

10 Downing Street has been used by Britain's Prime Ministers since 1732. At first, Number 10 was often "lent out" to friends or family members. It only became established as the Prime Ministers' home after 1902, though not all of them lived there.

Over three hundred years old, the building on Downing Street contains about one hundred rooms. There is a private residence on the third floor and a kitchen in the basement. The other floors contain offices and numerous conference, reception, sitting and dining rooms where the Prime Minister works, and where government ministers, national leaders and foreign public figures are received and entertained. There is an interior courtyard and, at the back, a nice terrace overlooking a garden.

The black facade of the house was the result of years of London pollution. The brickwork is in fact a yellow colour and is now painted black to keep its familiar appearance.

Until the 1900s Prime Ministers who lived at Number 10 were expected to bring all their own furniture and bedclothes with them when they moved in. Nowadays, the state buys all the necessary furniture and other things, even in the private residence. Prime Ministers bring only their personal belongings.

10 Downing Street is one of the most heavily guarded buildings in Britain. The black front door at Number 10 has no keyhole — it can only be opened from the inside. There is always a security guard stationed behind the door to open it for the prime minister, no matter how

early or late he/she comes home. No one can enter the building without passing through a scanner and a set of security gates manned by armed guards. The iron gates were installed at both ends of the street in 1989. There are armed police on guard. However, in the first five years after Tony Blair became Prime Minister (1997–2007), 37 computers, four mobile phones, two cameras, a mini-disc player, a video recorder, four printers, two projectors and a bicycle were stolen from the building.

Tourists visiting Downing Street are able to see the street only through the gates at the entrance. Due to safety reasons, any strangers are strictly prohibited inside 10 Downing Street. There is, however, a tour of 10 Downing Street on the website available to anyone who wants to see it from inside.

You have received a letter from your English-speaking pen friend, Christopher.

... Last winter I had my first snowboarding experience. It was not easy but I'm not going to give up. I think snowboarding will be my favourite sport next winter. What do you usually do at weekends in winter? Which is the best sport for a teenager to take up? What hobby do you think you might like to try in the future, and why do think so? ...

Write him a letter and answer his 3 questions. Write **100–120** words. Remember the rules of letter writing.
